amount for completed quarters and then for the balance period, interest is calculated for completed months and further for incomplete month on actual number of days.

(b) For Cumulative Fixed Deposits, interest is compounded quarterly on completion of exact quarters. For the broken period beyond completed quarters, simple interest is calculated on the Cumulative Fixed Deposits amount for remaining number of days.

(c) In case of premature withdrawal, the interest is calculated on the principal amount for completed quarters and then for the balance period, interest is calculated for completed months and further for incomplete month on actual number of days. The deposit may be subject to premature closure charges/recovered interest already paid or the default rate, if any, from the proceeds of the Fixed Deposit as prescribed by the Bank on the date of Deposit and in accordance with prevailing regulations of Reserve Bank of India and SARASWAT Bank.
